## PERSONAL STATEMENT

My spiritual journey revolves around the Word of God. When I was ten years of age, my father stepped up and became the spiritual leader of our family. We started attending a local Southern Baptist Church. In a few months, I was saved, and I began to grow in my faith. I sensed the Lord's call to ministry during my senior year of college, as a result of my involvement in my church and the Baptist Student Union. Following my service as a revival team preacher to the Northwestern USA, I responded to the Lord's call to full-time Christian ministry. Throughout my service as a pastor, I have centered my ministry on the Word of God. I have discovered that I must be transformed by the Word before others can be transformed. Whether it is through preaching or teaching, the Word of the Lord transforms me as it informs my ministry.
